

Name of the Department- Moulik Siddhant & Samhita

About the Department : Department of Moulik Siddhant and Sanhita is considered as the backbone of Ayurveda. In this department subjects of all years of BAMS course are covered. Research methodology of PG First year is also taught.

The department has the expertise in Basic ancient texts .i.e.Samhitas. Indian philosophy and History of Ayurveda. All other departments in Ayurved take help from this department to take authentic information regarding the concerned subject.As the original subjects of Ayurveda had been written in Sanskrit, the people find it difficult to understand the exact meaning of the texts. The reason is that Sanskrit is also an integral part of this Department.
